

If Not This—Then This

I wouldn't be without this Westinghouse Fan a single day. The breeze begins to blow as soon as I turn the switch. No more oppressive days for me—or nights either. Beats the seashore all hollow.

Of course I have one at home. Just as necessary there as in the office. Cost? Why, the cost is nothing compared with the comfort.

My advice to you: lose no time—get a Westinghouse Electric Fan today.

SIGNALS OF DISTRESS

Hickman People Should Know How to Read and Heed Them.

Disordered kidneys gives many signals of distress. The secretions may be dark, contain sediment.

Passages are sometimes frequent, scanty, painful. Backache is often present day and night.

Headaches and dizzy spells may occur.

Weakened kidneys should receive quick help.

Don't delay! Use a special kidney remedy.

Doan's Kidney Pills are for weak kidneys, backache and urinary disorders.

Hickman evidence proves their worth.

W. A. Smith, Hickman, says: "I had pains across the small of my back and in my sides. My kidneys and bladder were weak, obliging me to get up at night. Two boxes of Doan's Kidney Pills cured me. Now I seldom have need of a kidney remedy."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills the same that Mr. Smith recommends. Foster-Milburn Co., props, Buffalo, N. Y. (Advt.)

D. B. Wilson was the victim of a singular and painful accident last Friday. While bringing his new car from Paducah, the driver hit a knoll in the road while going at a pretty stiff gait and the bounce threw Mr. Wilson against one of the top pieces, resulting in a broken nose.

County School Notes

By Miss Virginia Luten
County Supt.

The new school house at Sycamore Chapel has been completed. This is a very substantial building well lighted and ventilated and has a cloak room and porch.

The following schools will open July 5th: Taylor, Edmiston,

Rush Creek, Roper, Walnut Grove, Fair View, Beech Grove, Blue Pond, Ridge, New Hope, Island, Bend, and Tyler. We hope to have a full attendance the first day when pupils will be assigned books. The teachers will meet at the court house Saturday, July 3rd, at one o'clock to arrange the term's work and receive all the records. Several of the districts have formed the habit of meeting at the school just before the opening day and putting the house in order.

All book dealers in the county have been asked to have a sufficient number of books in stock to supply the school opening in July. We regret that we have been unable to get any one at Cayce to handle the school books for the convenience of the schools in that section. The board has made several appointments, but so far no one has agreed to accept the agency there.

The summer term of the Western Normal at Bowling Green began this week. Misses Lucile Gabby and Elise Luten are attending this school.

"AUTOMOFailure."

Some exhibitors cater more to those who come to their place of amusement in automobiles than the thousands who walk or come on the street cars (when they run.) But with us the money paid through our box office window by the man who walks is just as good as the money of the man who comes in a car. And don't stop to dress up, just come along in the very same clothes you are wearing. Bring the wife and the children, we'll make room for you all, and don't worry about the price; it is always 5c and 10c.—The Empress.

Chicago—the Great Metropolis and Summer Resort

Cooled by Lake Michigan, Beautified by a Wonderful Park System, It Combines the Features of the Seashore, the Country and the City

1 Chicago, the second largest city in the western hemisphere and the fifth largest in the world is worth seeing.

2 It can be visited from June to October more favorably and with more pleasing results than at any other time of the year. Its summer days are delightfully comfortable, with sunny skies and with cool breezes from off the lake.

3 There is nothing pent up or enclosed about Chicago. Its wonderful parks and connecting boulevard system, and its general up-building on the open order principle, with a vast outlying prairie country forming its land boundaries, supplement the climatic influence of the lake and give breezes from all quarters a chance for free circulation, thus making it a favorable city in which to sojourn during any portion of the summer.

4 Its location at the foot of Lake Michigan makes it a seashore city in every respect, except that the waters that lave its shores are fresh instead of salt. From its beaches and water front one looks out on the same broad expanse and water-line horizon as does one at the Atlantic Coast resorts.

5 Flanking the heart of the great residential district of the city are the bathing beaches of Chicago which may be, and are, enjoyed by all classes of people. These beaches dot the lake shore from 79th Street on the South to Clarendon Street on the North Side. Alternating with these and for fifteen miles north is also a number of free and private beaches. Fees for bathing suits and lockers are nominal and if you go to the beach from your boarding house or hotel in your own bathing suit the lake is free.

6 Its park and connecting boulevard system aggregates 4,612 acres. Divided into three principle groups, in as many sections of the city, the parks and boulevards are most beautiful examples of the best art in landscape gardening, and in these parks it may be said that it is doubtful if any city in the world does more for the pleasure of the people, or if in any other city the people of all classes get more rational and continuous enjoyment. The numerous small community parks, famous the world over, and small municipal parks, playgrounds and bathing beaches.

7 One can make lake trips from the port of Chicago, varying from little local excursions to the parks and beaches, to an extended tour of the chain of Great Lakes. Among these trips are those of a day or more to neighboring cities, such as Milwaukee, Michigan City, St. Joseph, Benton Harbor, Holland, Saugatuck, Grand Haven and Muskegon. The steamship service for both short and extended trips is of the best, with efficient up-to-date boats.

8 Opportunities for automobile tours in and about Chicago are not only possible but delightful from a scenic point of view. In the city alone the tourist can travel over 150 miles of beautiful boulevards and park drives. Northward, a run of about 30 miles can be made following the lake shore through beautiful suburbs to Ft. Sheridan and the Government Naval Training Station. Westward, the motorist can run to the Fox Lake and Geneva Lake regions and to Delavan, Elgin and Aurora. Southward, for about 100 miles or more, a motor trip can be taken to Starved Rock, Deer Park and a section of the Illinois River Country, replete with a historic past and charming with its scenic attractions.

9 Golf courses in the parks and numerous Country and Golf Club links furnish ample facilities for the golf devotee. Yachting and motor boating are also among the sporting activities of the city. High class cuisine and amusement gardens are to be found in all sections of the city, and three major league baseball teams will help keep extremely busy the visitors seeking such forms of recreation.

10 In the city itself will be found innumerable attractions as well as the highest class hotels and restaurants of the country. Among the former may be mentioned the Art Institute, the Chicago Historical Society, the Academy of Science, the University of Chicago, the Field Museum of Natural History, Hull House, Ghetto District and the Union Stock Yards. Also the famous loop shopping district, in which will be found stores having no equal elsewhere in the world.

11 Send to the undersigned for a free copy of the beautiful illustrated booklet entitled, "Chicago for the Tourist," issued by the Illinois Central Railroad Company to supplement the above meager suggestions as to why Chicago is more than worth a visit during the summer months.
